About Lumenor

Lumenor is a woman-owned business (WBE) and certified DBE consulting firm focused on the delivery of quality business, technology and environmental solutions. The professional services provided by Lumenor offer practical and sustainable strategies for our clients allowing them to focus on delivering their core business. Our approach is unique, because we utilize a methodology that integrates people, processes, and technology to implement innovative solutions while driving successful delivery and adoption. This translates into deliverables that meet project objectives and achieve the targeted goals.

Dedicated to bettering the communities we serve, Lumenor leverages our dynamic team of technical experts to work with our clients allowing them to modernize their infrastructure, enhance customer experience and streamline the decision-making process.
